DECLARATION UNDER 37 CFR 1.132

Sir:

We, Hay Dvir, Michal Harel, Lilly-Toker, Israel Silman, Anthony H. Futerma and Joel L. Sussman, declare that we are the only inventors of the invention disclosed and claimed in the above-identified application.

Any previously filed Declaration by any of the undersigned that identified Swetlana Adamsky as an inventor was in error in that regard, the error being without deceptive intent. A Petition Under 37 CFR 1.48(a) removing Swetlana Adamsky as a named inventor is being filed along with this Declaration; and

That the co-author, Andrew A. McCarthy, identified along with us in an article entitled *X-Ray Structure of Human Acid-Glucosidase, the Defective Enzyme in Gaucher Disease*, published on June 3, 2003 (online publication) in "EMBO Reports" in Vol. 4, Issue 7, at pages 704-709, was listed on said article solely for his technical efforts operating under our guidance and direction, and was not a co-inventor of the above-identified application.

We declare that all statements made herein of our knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willfully false statements are punishable by fine or imprisonment under 18 U.S.C. Section 1001 and that any such statement may jeopardize the validity of the subject application or any patent issued thereon.
